

Bindomatic 5000

Manual binding for any demand

The Bindomatic 5000 is a powerful manually operated binder designed to meet any document format demand with spine lengths up to 370mm. Bind documents as thick as 54mm, soft covers, hard covers - this companion will bind them all and do it stronger and more effectively than any other manually operated binding system on the market. You can bind up to 15 documents simultaneously.

The finished results are remarkably like that of a print shop.

Technical Data: Bindomatic 5000

DOCUMENT FORMATS: All formats (A3, A4, A5 etc) with a maximum spine length of 370mm

SPINE WIDTHS: 1.5mm - 54mm

LOAD CAPACITY: Up to 15 documents per binding cycle (~60 seconds) depending on spine width.

ENERGY CONSUMPTION: 230V, 50/60Hz (max 700W, stand-by 3W)

DIMENSIONS: 440 x 270 x 155mm

WEIGHT: 5.5kg

BINDOMATIC®
A professional impression.

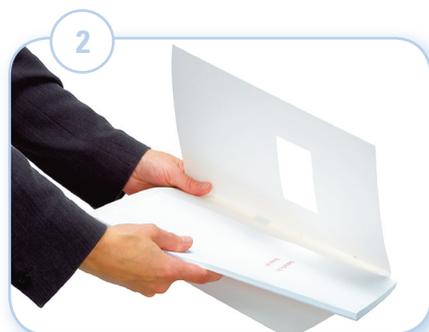

Flexibility at your fingertips

Included in the system is a separate high capacity cooling stand with a clever, easy-to-use spine-width indicator. Perhaps you need to remove a page or add one? No problem - just re-heat the document.

Creating
a professional
impression
is easy!

1 Measure the set of paper with the cover size selector.

2 Insert the set of paper into a Bindomatic cover with the correct spine width.

3 Load one or several documents in the 5000 and gently slide shut the support plate. Wait a few moments for the signal - binding is complete.

4 Place the documents on the cooling plate for a few moments.

5 Congratulations – you have produced a professionally bound document in an instant!

Technical Specifications - Bindomatic 5000

Document formats:	A3, A4, A5 etc) with a maximum spine length of 370mm
